PROFESSIONAL SUMMARY

Full Stack .NET Developer with 2+ years of experience in designing, developing, and maintaining enterprise web applications using ASP.NET MVC, ASP.NET Core Web API, Angular, C#, SQL Server, TypeScript, and REST APIs. Experienced in ERP, Healthcare, Fleet Management, Service Management, and Product-Based Software solutions. Skilled in developing scalable applications, database optimization, API integration, and delivering end-to-end business solutions.

TECHNICAL SKILLS

Programming Languages:	C#, TypeScript, JavaScript, Node.js
Frontend:	Angular, Angular CLI, React, HTML5, CSS3, UI/UX Design, Responsive Web Design
Backend:	ASP.NET MVC, ASP.NET Core, Web API, REST APIs, .NET Framework
Databases:	SQL Server (SSMS), MySQL, Entity Framework, Database Optimization
Tools & Technologies:	Git, Visual Studio, VS Code, RESTful API Design, Postman

AI TOOLS & KNOWLEDGE

AI Coding Assistants:	GitHub Copilot, Cursor AI — AI-augmented code completion, refactoring, and debugging
Conversational AI:	ChatGPT, Claude (Anthropic), Google Gemini — prompt engineering, technical Q&A, content generation
Workflow Integration:	Leverages AI tools to accelerate development cycles, generate boilerplate code, review logic, and draft technical documentation
Awareness:	Familiar with LLM fundamentals, Retrieval-Augmented Generation (RAG) concepts, and responsible AI usage in enterprise software

PROFESSIONAL EXPERIENCE

Milessoft Software Technologies | Full Stack Web Developer June 2024 – Present | Nashik, Maharashtra

- Designed, developed, and maintained enterprise web application modules across multiple business domains including Field Service, Fleet, Healthcare, and Document Management.
- Built and consumed RESTful APIs using ASP.NET Core Web API, integrating frontend Angular components with backend C# business logic and SQL Server databases.
- Developed Angular-based single-page application (SPA) modules with TypeScript, implementing responsive UI layouts and dynamic component interactions.
- Contributed to database design, query optimization, and stored procedure development using SQL Server Management Studio.
- Collaborated on end-to-end software delivery for product-based solutions serving ERP, service management, and healthcare verticals.

KEY PROJECTS

Field Service Management

Developed and maintained technician service management modules for handling installation, maintenance, and support activities. Enabled field technicians to log service requests, update job statuses, and generate service reports through an integrated web application.

Technologies: Angular CLI, TypeScript, Node.js, ASP.NET MVC, C#, REST API, SQL Server

Service Management & Customer Support

Developed customer service and product support management modules enabling end-to-end ticket lifecycle management, customer communication tracking, and SLA monitoring.

Technologies: Angular, TypeScript, Node.js, ASP.NET Core Web API, REST API, SQL Server

Document Management & Security

Developed secure document approval and digital signature workflows, allowing organizations to manage document lifecycle, approvals, and audit trails with role-based access control.

Technologies: ASP.NET MVC, C#, SQL Server

Fleet & Vehicle Management

Developed vehicle booking, allocation, and utilization tracking modules, enabling organizations to manage fleet resources, schedule vehicle assignments, and monitor usage analytics.

Technologies: ASP.NET MVC, C#, SQL Server

Healthcare Management System

Developed outpatient registration, appointment scheduling, and consultation management modules to streamline patient intake, provider scheduling, and clinical record management.

Technologies: ASP.NET MVC, C#, SQL Server

EDUCATION

Bachelor of Computer Applications (BCA)

April 2021 – April 2024

R. N. C. Science J. D. C. Bytco College of Engineering, Nashik, Maharashtra
